

ACM Publishing License Agreement

ACM Publication or Event: 2021 International Conference for High Performance Computing, Networking, Storage, and Analysis
Title of Work (including any Supplements, the “Work”): Reverse-Mode Automatic Differentiation and Optimization of GPU Kernels via Enzyme
Author(s) (collectively, “Author”): William Moses, Valentin Churavy, Ladger Pahler, Jan Huckelheim, Sri Hari Krishan Narayana, Michel Schanen, Johannes Doefert
Owner(s) (collectively, “Owner”): UChicago Argonne, LLC, Operator of Argonne National Laboratory

Note: If the copyright Owner and the Author are not the same, the Owner or an authorized agent of the Owner must sign the Agreement. If the work is jointly owned, the parties must authorize one among them to sign as the duly authorized agent of all Owners. You must sign *either* the Grant of Rights in 2 *or* the declaration of Government Work in 3. Mixed government and non-government co-authorship must sign *both* Grant of Rights in 2 and declaration of Government Work in 3. You must sign the Representations and Warranties in section 9.

1. Definitions.

(a) “Supplement” means additional files which form an integral part of the Work and are submitted for review along with the textual manuscript.

(b) “Auxiliary Material” means additional files, including software and executables that are *not submitted for review* as an integral part of the Work but are supplied by the Author as useful and interesting resources for the reader.

(c) “Artistic Image” means an image or figure included in the Work that has independent artistic value, created for some purpose other than to illustrate a point in this paper.

(d) “Government Work” means a Work prepared by an officer or employee of the United States government as part of that person’s official duties, or a Work that is ineligible for copyright protection under the laws of any other country.

(e) “Minor Revision” means a derivative work containing less than twenty-five percent (25%) of new substantive material.

(f) “Major Revision” means a derivative work with at least 25% new material which is treated by ACM as a new work wholly owned by the author.

(g) If the paper is not published, all rights will revert back to the author.

2. Grant of Rights.

(i) Owner hereby grants to ACM an exclusive, worldwide, royalty-free, perpetual, irrevocable, transferable and sublicensable license to publish, reproduce and distribute all or any

part of the Work in any and all forms of media, now or hereafter known, including in the above publication and in the ACM Digital Library, and to authorize third parties to do the same.

(ii) In connection with software and Artistic Images and Auxiliary Materials, Owner grants ACM non-exclusive permission to publish, reproduce and distribute in any and all forms of media, now or hereafter known, including in the above publication and in the ACM Digital Library.

(iii) In connection with any “Minor Revision”, that is, a derivative work containing less than twenty-five percent (25%) of new substantive material, Owner hereby grants to ACM all rights in the Minor Revision that Owner grants to ACM with respect to the Work, and all terms of this Agreement shall apply to the Minor Revision.

2.1 Government Work

I declare I am an employee of the National Government of my country and my Government claims rights to this work, or it is not copyrightable. (Government work is classified as Public Domain in U.S. only.

*Note: Do not sign “3. Government Work” if you are a **State** employee. Do not sign “2.1. Government Work” if your research was only funded by an agency of the Government, unless required to do so as a grant recipient or direct contractor.)*

If either you or a co-author is a contractor of the National Government, sign *both* “2. Grant of Rights” above and here for “2.1. Government Work”. A modified rights statement regarding government use will appear on the published work.

Name of National Government Agency and Country:

U.S. Department of Energy - contract # DE-AC02-06CH11357

If not the United States or Canada, does your country claim copyright in this work? _____

If “No”, make sure you have signed above in “2. Grant of Rights”.

3. Reserved Rights and Permitted Uses.

(a) All rights and permissions the author has not granted to ACM in Paragraph 2 are reserved to the Owner, including without limitation the ownership of the copyright of the Work and all other proprietary rights such as patent or trademark rights.

(b) Furthermore, notwithstanding the exclusive rights the Owner has granted to ACM pursuant to Paragraph 2(a), Owner shall have the right to do the following:

(i) Reuse any portion of the Work, without fee, in any future works written or edited *by the Author*, including books, lectures and presentations in any and all media.

(ii) Create a “Major Revision” which is *not* subject to the terms of this License

(iii) Post the Accepted Version of the Work on (1) the Author’s home page, (2) the Owner’s institutional repository, or (3) any repository legally mandated by an agency funding the research on which the Work is based, and (4) any non-commercial repository or aggregation that does not duplicate ACM tables of contents, i.e., whose patterns of links do not substantially duplicate an ACM-copyrighted volume or issue. Non-commercial repositories are here understood as repositories owned by non-profit organizations that do not charge a fee for accessing deposited articles and that do not sell advertising or otherwise profit from serving articles.

(iv) Post an “Author-Izer” link enabling free downloads of the Version of Record in the ACM Digital Library on (1) the Author’s home page or (2) the Owner’s institutional repository;

(v) Prior to commencement of the ACM peer review process, post the version of the Work as submitted to ACM (“Submitted Version”) to non-peer reviewed servers;

(vi) Make distributions of the final published Version of Record internally to the Owner’s employees, if applicable;

(vii) Bundle the Work in any of Owner’s software distributions; and

(viii) Use any Auxiliary Material independent from the Work.

4. ACM Citation and Digital Object Identifier.

(a) In connection with any use by the Owner of the Definitive Version, Owner shall include the ACM citation and ACM Digital Object Identifier.

(b) In connection with any use by the Owner of the Submitted Version (if accepted) or the Accepted Version or a Minor Revision, Owner shall use best efforts to display the ACM citation, along with a statement substantially similar to the following:

“© [Owner] [Year]. This is the author’s version of the work. It is posted here for your personal use. Not for redistribution. The definitive version was published in {Source Publication}, <http://dx.doi.org/10.1145/{number}>.”

5. Third Party Rights.

This grant of license applies only to the Work as a whole, not to any embedded objects owned by third parties. An author who embeds an object, such as an art image that is copyrighted by

a third party, must obtain that party's permission to include the object, with the understanding that the entire Work may be distributed as a unit in any medium. The requirement to obtain third-party permission does not apply if the author embeds only a link to the copyright holder's definitive version of the object. (See [Policy, §3.7 Links](http://www.acm.org/publications/third-party-material) and INSTRUCTIONS at <http://www.acm.org/publications/third-party-material>.)

6. Permission.

In the event that any materials used in my paper or Auxiliary Materials contain the work of third-party individuals or organizations (including copyrighted music or movie excerpts or anything not owned by me), I understand that it is my responsibility to secure any necessary permissions and/or licenses. (Note: Synchronization licenses must be secured to include any copyrighted musical composition in multimedia presentations.)

Third-party permission must be clearly stated in the figure caption(s) or near the object(s) in the text narrative in the Work and any presentation of it and in Auxiliary Materials as applicable.

Identify below any third-party material included in the Work, presentation and/or the Auxiliary Materials. Please specify the type of material being used, i.e., figure, table, photo, music, video or code. **When the permission is obtained, attach it to this form. The Work will not be published without proof of the necessary permissions or substantiation of a claim of fair use.** *(Use a separate sheet if additional space is required.)*

7. Artistic Images

An exception to this Grant of Rights is allowed for images or figures in your paper which have "independent artistic value." You or your employer may retain copyright to the artistic images or figures which you created for some purpose other than to illustrate a point in this paper and you wish to exploit in other contexts.

If you have such exceptional images, you must grant permission to ACM to use them in the context of the article in current and future formats. You must identify them here and also in the paper by including the owner's copyright notice within the image itself and/or in its figure caption.

The Artistic Images, if any, are clearly and accurately noted as such (including any applicable copyright notice) in the Submitted Version.

8. Audio/Video Recording of Presentation

(The section used for conference presentations and video interviews)

The undersigned Owner grants to ACM permission make an audio/video recording of a presentation of the Work, to use the name, likeness, and biographical material of any party comprising Author and to distribute recordings, transcriptions and/or other copies of such audio-visual recording in whole or in part in the ACM Digital Library or for sale as part of an ACM product on CD-ROM, DVD, webcast, USB device, streaming video or any other media format now or hereafter known; or in any advertising or publicity of ACM or its conferences.

9. Representations, Warranties and Covenants. The undersigned Owner hereby represents, warrants and covenants as follows:

- (a) The undersigned is the sole owner or the authorized agent of the Owner(s) of the Work;
- (b) The undersigned is authorized to enter into this Agreement and grant the rights to ACM contemplated hereby;
- (c) The Work is original and does not infringe the rights of any third party; all permissions for use of third-party materials consistent in scope and duration with the rights granted to ACM have been obtained, copies of such permissions have been provided to ACM, and the Work as submitted to ACM clearly and accurately indicates the credit to the proprietors of any such third-party materials (including any applicable copyright notice);
- (d) The Work has not been published except for informal postings on non-peer reviewed servers, and Owner covenants to use best efforts to place ACM DOI pointers on any such prior postings;

- (e) The Auxiliary Materials, if any, contain no malicious code, virus, Trojan horse or other software routines or hardware components designed to permit unauthorized access or to disable, erase or otherwise harm any computer systems or software; and
- (f) The Artistic Images, if any, are clearly and accurately noted as such (including any applicable copyright notice) in the Submitted Version.

10. Enforcement. At ACM's expense, ACM shall have the right (but not the obligation) to defend and enforce the rights granted to ACM hereunder, including in connection with any instances of plagiarism brought to the attention of ACM. Owner shall notify ACM in writing as promptly as practicable upon becoming aware that any third party is infringing upon the rights granted to ACM and shall reasonably cooperate with ACM in its defense or enforcement.
11. Governing Law: This Agreement shall be governed by, and construed in accordance with, the laws of the state of New York applicable to contracts entered into and to be fully performed therein.

*Signed on behalf of Argonne employees only
 (Huckelheim, Narayanan, Schanen, Doefert)

The submitted manuscript has been created by UChicago Argonne, LLC, Operator of Argonne National Laboratory ("Argonne"). Argonne, a U.S. Department of Energy Office of Science laboratory, is operated under Contract No. DE-AC02-06CH11357. The U.S. Government retains for itself, and others acting on its behalf, a paid-up nonexclusive, irrevocable worldwide license in said article to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, by or on behalf of the Government. The Department of Energy will provide public access to these results of federally sponsored research in accordance with the DOE Public Access Plan. <http://energy.gov/downloads/doe-public-access-plan>
